

16-STATION ROTARY TRANSFER ASSEMBLY AUTOMATED SYSTEM

>>TASK IN HAND...

Fully-automatic production of contacts onto braided cable

ELECTRICAL INDUSTRY

...OUR SOLUTION AT A GLANCE<<

16-STATION ROTARY TRANSFER ASSEMBLY AUTOMATED SYSTEM

Processing of a wide variety of almost unlimited lengths & diameters of cable

Fully-automatic process beginning with cable infeed from coil, via measurement, cutting to length & skinning processes then introduction to wire end contact and double-ended welding-on of contacts and finally depositing of the finished product onto a conveyor
