

# DALEX

SCHWEISSTECHNIK

## Electrode package

Flexible and quickly prepared for all cases

The DALEX electrode package has been assembled for you by our experienced technicians. It ensures that all the necessary electrodes are in stock. This increases your machine availability and minimises failure and delivery times. Short-term repairs or independent installation are possible.

## With the DALEX electrode case you have all important electrodes quickly at hand

### YOUR ADVANTAGES

- Original DALEX spare parts with the highest quality standard and fitting accuracy
- Significantly more cost-effective than purchasing individual parts
- Maintenance of performance and availability
- Minimization of downtime and delivery times

## Secure yourself quickly the favourable introductory price
